Can someone explain GvE and CIF to me?

I think that they both sound interesting, but I'd like to know more about them before I join in.

CFI (Code Forum Interface) is a rather complex forum-wide RP where forumers are battling for the Purity (Antiviruses) or Corruption (Viruses) of the Forum Interface. Everyone is sorted into a division, and everyone has a unique weapon and soul color. There's kind of a steady plotline to this, though.

I can probably find the original information thread if you'd like.
